London, Oct. 26 .- The battle for the straits of Lover, one of the most sanguinary of the war, is continuing with unabated fury but thus far The Austro-Hungarian empassy here shares of stock, which had been left without either side gaining any decided advantage.

The opposing jarmies are delivering force attacks, gaining or losing a few miles or less of ground with sacrifices in life that are appalling. The whole countryside is fairly reeking with the blood c. thousands of killed or wounded.

Most Desperate Fighting. In towns and villages with which the coun'ry is dotted, and most of which have been laid in ruins by the artillery, most desperate fighting has occurred when the cavalry and infantry came into contact.

Both sides speak of the heavy adversaries but say nothing of their samed the character of a great batlosses they have imposed on their own dead or wounded, to fill the loo which the front extends over places of whom reinforcements are

The opinion also is expressed here that the operations of the allied vessels in the North Sea off the Belgian coast and in the vicinity of the Straits of Dover may cause the German fleet to come out and give battle.

Submarines Not so Effective. In naval circles here it is considered that the German submarines, although they have proved deadly to ships steaming slowly, will not be so effective against ships steaming and maneuvering at high speed and in shallow waters as the British monitors and their auxiliaries have been doing.

There is some talk of the Germans bringing their big 42 centimetre guns to the coast to use against the allies' warships but the British sailors are credited with saying that their vessels can prevent these guns being put in position. They claim that even if they should be mounted they will not be so deadagainst a fast moving target as they were against the stationary forts which they destroyed so eas-

War News Summarized

All the efforts of the allied armies and the Germans are centered along the North Sea coast, where in that section included between Nieuport and Dixmunde, the battle has been raging incessantly for several days past. The latest official advices from Paris report a violent bombardment of Nieuport by the German guns, but up to the present, so far as is known to the public, neither side has gained any definite success over the other.

The British officials declare that the situation is satisfactory and while the fighting is severe, continuous ground is being gained by the allies and many prisoners have been taken.

German general headquarters admits that the positions held by the allies between Nieuport and Dixmude are being obstinately defended but that, in the exchange of heavy artillery fire between the British fleet and the German gunners, three warships were hit. On Sunday the ships, according to the German report, drew out far off shore.

The French steamer Admiral Ganteaume has been added to the list of those vessels blown up by mines in the waters off the French and Belgian coast. Several of the crew were rescued by cross channel steamers.

Capetown reports that the rebel Maritz and his forces have met defeat at the hands of the Union of South African troops. Maritz was wounded and has fled to German territory.

The Russian official report describes a great battle which is in progress along a front of more than sixty miles in Poland, extending from Kawa to the river Iljanka, in which the Russians are declared to be winning victories. The same report says that the resistance of the Austrians in Galicia is weakening.

The people of Belgium are in dire straits, many millions of them facing starvation. The American minister to Belgium says there is less than two weeks supply of food in the city, while in the country districts the situations is worse. The American relief commission has been forced to delay until Wednesday its first shipment of food to Belginm, the British board of trade not having granted the necessary license in time.

With the release of the American tank steamer Brindilla, captured by the British auxiliary cruiser Caronia and taken to Halifax and the announcement that the Platuria, held on the coast of Scotland, would also be permitted to continue her voyage, all pending questions between the United States and Great Britain over the seizure of American ships have been settled.

GERMANS CONTINUE

Invaders Are Able to Make But Little Progress Against Allied Troops

FRENCH GAIN IN EAST

French Gain Victory on Eastern Wing Placing German Lines of Communication In Difficulty

HOLD IMPORTANT POSITIONS

Paris, Oct. 26 .- 11:36 p. m .-The smashing tactics of the Germans along the North Sea coast line continued incessantly today when the big guns were turned on Nieuport and the Allies had to withstand constant attacks of masses of troops. Very little progress however, was made by the Germans who were faced with the strongest resistance.

Yesterdays crossing of the Yser apparently had only a moral effect as the Germans were confronted by solid lines of Allied troops and were prevented from advancing without overwhelming efforts further toward the channel ports.

The German infantry executed a number of night attacks, not only on the extreme wing but also in the vicinity of Lille, where they encountered a most obstinate resistance. The Allies are displaying wonderful energy in this region. The commanders are sparing their men many hardships and are able to give constant reliefs to the troops on the firing line.

Troops Relax and Rest.

When they come from the front for a rest the troops are accomodated in the numerous villages scattered in the rear, where they seem to threw off all the feeling engendered by the critical situation and play cards, dominoes and other ed the accounting requested by the games in the cafes until the bugles call them together for a further

tre taking. several times during the course of a lay. Today in one hamlet forty altied soldiers who had been wounded were lying in a factory which had been transformed into a hospital. A shell struck the building which broke into flames. Ten bearers of the American ambulance volunteered to rescue the wounded men and succeeded in saving all of them.

An hour afterward this hamlet was captured by the Germans who, after occupying it for a short ime, vere chased out again after desperate street fighting. Meanwhile be wounded Allies were removed o the hospital in the rear.

French Credited with Gain.

On the line from Soissons to Craonne, the Allies are said to have obtained a slight advantage in today's fighting, while on the Eastern wing the French are credited with a gain which it is claimed, places the German lines of communere pushed well forward and left miles wide for a possible German retirement.

The French are said to occupy Vosges. Their scouts swarm in evry wood and thicket in front of their trenches which are protected y barbed wire entanglements. The rench aviators are doing excellent service in locating the German forses and finding the positions of their artillery.

Cotton Can Be Shipped Anywhere. Cotton which is specifically mentioned by Great Britain as neither absolute nor conditional contraband, can be shipped in neutral vessels not only to neutral countries but to all belligerents without molestation.

The announcement from London that the American Tanker Brindilla had been ordered released at Halifax, N. S., and that the Platuria held on the coast of Scotland, similarly would be permitted to continue her voyage cleared up every pending question on the subject of shipping which had arisen in the past week between the United States and Great Britain. In both cases, the principle set forth in the communication from the British ambassador, were followed namely that on detera mining the exact destination of the cargo as neutral, the vessels would uot be held.

May Be No Further Difficulty. Great Britain's decision not to aise the question of change of reg ward cheerily to the inferno where stry in either the case of the Brinthey must face the shaprnell and dilla or the Platuria strengthened machine guns, bidding "so long" to the belief of administration officials heir comrades whose places they that there would be no further difficulty in this connection where the Sometimes villages change hands ownership of vessels which changed their flag was continuously American. As yet there has been no test case of a change from German to American registry where a transfer from a German company to an American concern was involved. there have been several such transers, but in each case it is understood British consuls have been atisfied that the transfer was of a onafide character and have not ecommended that the vessels be prought before a prize court.

Administration Satisfied. The attitude of the British government in these matters was regarded by the Washington administration as eminently satisfactory the assurances that cotton cargoes would not be molested even when bound for belligerent countries being particularly welcome. As a result of these definite assurances Secretary McAdoo issued the follow-

ng statement tonight: "There is no reason why underwriters who cover marine and war nication in difficulty. > Life In the Garden of Eden. The inhabitants of Eden plainly lived without toil. They were born to that leisure for which we strive so fiercely in this workaday world. So far as the man was concerned, the sting of the expulsion was the fact that he had to go forth and eat bread in the sweat of his face. Jehovah did not enforce this sentence at hard labor by putting a guard over Adam. Eve was not placed in charge, nor yet the wily serpent. The offender was merely driven forth from the garden that was full of trees. The trees had made it paradise. Every tree that was pleasant to the sight and good for food was there. The inhabitants walked about In the comfortable shade and ate. When thirst arose there were the juices of fruits and palm wine. The spontaneous products of the garden even supplied the first demand for clothes. On that bitter day of expulsion these erstwhile bappy barvesters of treetops were driven forth from this rich and fruitful shade, driven to the fields to

Many are the curious methods adopted for curing snake bites, but surely none can be more so than a way of which our Bhavagar correspondent informs us. Two natives in a village near that station were, be says, brought back to life after being bitten by a

The victims were seated on the ground and there held, while from a height of sixteen feet gallons of hot water were poured on their heads. Presently, according to the correspondent the victims "took a new lease of life," and are as well as though they had never been in the jaws of death at

The explanation to this "cure" probably is that the snake, as often happens, bit its victims, but injected no poison into them. Thus the men were merely terrified and continued to be frightened until the pain caused by the douche of hot water gave them something else to think about .- Civil and Military Gazette.

PRIOR to 1880 there was no organization, no regulation of hours or shop conditions in the cigar industry.

Chaos reigned. Health was bad. Pay was poor. Hours were long and employment unsteady. In addition, the influence of labor in securing remedial legislation was lacking, owing to lack of organization.

The birth and growth of the American labor movement brought with it, through its economic strength and

its legislative influence the remedial legislation, both in the union and governmental bodie, which has shown remarkable results as regards health in our industries.

The following is taken from a report made by International President Perkins to the membership of the C. M. I. U. of A. It is a compilation of statistics gathered from the locals of the organization in the United States, Canada and Porto Rico. The figures are eminently correct and reliable. They indicate results obtained in the standard of health in the cigar industry through organization.

Less Than Two Weeks' Food Supply Remains in Cities, in the Rural Districts Conditions Are Worse-Germany Disclaims Responsibility For Feeding Belgians.

Brussels, Oct. 26. (By way of London.)—Nearly 7,000,000 people into Belgium and into Holland. in Belgium face famine unless they receive help from the outside at

The American minister to Belgium, Brand Whitlock, says that less than two weeks' supply of food remains in the cities while conditions in the country districts are even worse. Though Germany has seized the food in some cities, for her soldiers, she still disclaims responsiility for feeding the Belgians.

Mr. Whitlock has had on hand needy in Brussels. Families forthe soup kitchens.

The factories are closed. stores remain open but have no business. The street cars are being vice has been suspended. The supplies of coffee, tea, flour, rice and salt are practically exhausted.

Reports received by Minister Whitlock from Louvain, Liege and Namur, say that the conditions in those cities are even worse than they are in Brussels. Louvain has only a four days supply of flour. while Liege has no flour at all. The peasants in many districts have been forced to exist on legumes, as the war. The Belgians in Antwerp the crops of beets and cabbages have appear curious as well as alarmed been ruined.

The meat and milk supplies also have been cut off, the army having taken the cattle.

HEALTHY HAIR SOFT,

FLUFFY AND RADIANT

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, stringy, lifeless and full of dandruff, Parislan Sage, an inexpensive tonic, sold by all druggists, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. Even dandruff is en-tirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry or brittle, Parisian Sage immediately removes the cause, and by towing up the scalp quickly restores the hair to its original brillianc; and

Parisian Sage can always be had from Coover & Shreve, and is a delightful and easily applied treatment that will never fail to act as hair and scalp - Adv.

DANCING IN THE SCHOOL

The permission to dance under the management of the public school is the request of a number of the pupils; and is now under ing, revenge, spite and vote accordconsideration by those concerned; which we hope will result in a positive refusal for the protection of the young people of this city. Dancing should not be allowed when it is rated as an evil by a large number of the parents who do not approve of the practice. Dancing whether in parlor, hall or school building is immoral; it cannot be ranked otherwise if we consider its tendencies; it is in practice immodest, and against purity of character. It is a seductive influence to the worst results; a prelude to the wreck of virtue in both sexes; these are its common results in the lives of many who are now the fallen, whose wrecked lives are witnesses. It is to be hoped that our Jacksonville public schools will be free from such a productive source of evil.

MOTORISTS HAVE NARROW ESCAPE

Automobiles Collide Near Salem Church Early Sunday Evening.

What was an almost head-on collision and wreck of autos occurred about 4 o'clock Sunday afternoon about six miles east of the city. As many know there is a of the cars was traveling on the wrong side of the road and as the other approached kept to that side. The second car then swerved to the left hand side of the road also in order to pass and just at this time when the swiftly traveling cars were within a few yards of one another the first car attempted to cross to the right side of the high-The cars came together with such force that the right side of the Mitchell was badly smashed, the car being torn and bent on this side from the radiator to the back axle. The front springs were badly bent and broken and on the right side the springs were broken off and forced up through the crank

Luckily occupants of neither of he cars were injured although three of those in the car traveling west were thrown out at the impact. One of the young men in this car was sitting in the front seat at the side of the driver. He was half turned in his seat, looking back and talking with those in the rear seat. He knew nothing of the approaching danger and sat unmoved at the collision, while his companions were thrown over his head into the ditch at the side of the road.

The Mitchell car from Springfield belongs to Thomas Furlong of the Capital City and was dridven by him. This car contained Mr. and Ars. Howard Furlong and their two little sons, Robert Furlong and the owner of the car. The Furlongs had been to this city and called on friends here before starting back to Springfield. Their car was brought to this city by William Newman and must be sent back to the Mitchell factory at Racine, Wis. as it is so badly smashed as to be beyond local repair.

The car going west at the time the accident, the Hudson, is . owned by Edwin Beggs of Ashland. Frank Beggs of southwest of this city, was driving the machine. The other occupants of the Beggs car were John Beggs, Edward Mc-Graugh, Henry Votsmier and J. V coming from Ashland and to Jack-

son ville. It is surely fortunate that none of the occupants of the cars were hurt or injured in any way. It is understood that neither party is blaming the other for the seemingly unavoidable accident as both cars were on the wrong side of the highway when the collision occurred.

his death was the result of foul play. Mr. Ryan was seen for the last time by a fellow workman on the day he failed to arrive home. He was in the act of taking a street car to return to his residence. A diligent search had been made for the body but no clew could be found, until the hunters reported their discovery. The body was removed to Atchison and later taken to St. Joseph. From that city it was orought to Jacksonville Sunday to the O'Donnell undertaking parlors. No inquest was held over the remains, the necessary burial permit having been issued, and drowning given as a cause of death.

Mr. Ryan was a son of Patrick Ryan and was born in this city March 20, 1869. He married Miss Maude Funk Nov. 22, 1899. They left Jacksonville about 18 years ago going to Clinton, later to Springfield and thence to St. Joseph, Mo. While in Jacksonville he worked at his trade at the Jacksonville State hospital and at the car shops.

Besides his wife he leaves three daughters, Dorothy, Marie and Harriet Ryan, also three sisters, Mrs. Elizabeth Fitzpatrick and Mrs. Nellie Rawn, of Freeport, and Mrs. Min nie Hill of Seattle, Wash., and four orothers, James Ryan of Beards town, Martin Ryan of Tacoma, Wash., Michael Ryan of Bozeman, Mont., and Patrick Ryan of Galena. The funeral services will be held his afternoon at 2:30 o'clock from the O'Donnell undertaking parlors.

"SCENIC AND HISTORIC ILLINOIS" IS ILLUSTRATED LECTURE THEME

Closing Meeting of Thousand Dollar Campaign Addressed at North-minster Church Monday Evening by Rev. Mr. Cressey of Mattoon.

'Scenic and Historic Illinois' was the theme of a very much appreciated illustrated lecture by the Rev. Roger F. Cressy Monday evening at Northminster church, a meeting which marked the closing of the thousand dollar campaign series. Rev. Mr. Cressey is pastor of the Broadway Presbyterian church of Mattoon and is a former pastor of Northminster. His talk was well prepared and of great interest were the slides showing the picturesque scenery, the historic shrines and the great achievements of the grand old Prairie State.

Rev. Mr. Cressey first showed views of the early French explorers, depicting the life and work of such men as Joliet and LaSalle. He showed a number of views relating to the history of Starved Rock and continued with the part played by Illinois in the war of 1812 and in the Black Hawk war of 1832. Pictures were shown of the life of Lincoln and of the various capitals of the state. Among the greatest achievements of the state is the drainage canal. The stereoptican illustrated the marvelous growth of Chicago and the lecture was closed by flashing on the screen again the picture of Lincoln.

EVAN WILLIAMS DELIGHTS LARGE AUDIENCE AT GRAND

America's Great Tenor Singer Entertains Appreciative Audience by His Wonderful Art.

Jacksonville music lovers enjoyed their first visit from Mr. Evan Williams, the great tenor singer last night. He was greeted by a the home of Mr. and Mrs. Homer good sized audience who warmly applauded his efforts. It has been a great many years and perhaps never before that a singer of Mr. Williams standing presented an entire program in English in the city. Those who know of his extraordinary ability to sing in other tongues can appreciate his special effort to give his audience last night, not only beautiful songs but words that not alone the few but all could un-

> Mr. Williams sings as though he enjoyed it thoroughly and his wonderful interpreting powers, coupled with his unusual brilliancy of tone production makes his efforts that of a true artist. He possesses a voice of unusual range, full of mellowness and warmth which appeals in no unspeakable measure to his audience. His program was so varied that he was given a wide range in which to show the various qualities of his voice.

Interest in Mr. Williams' appearance here was increased beause of his wonderful success in making records for the graphaphone, his voice being peculiarly dapted for such.

His encores included, "A Dream" by Bartlett, "The Perfect Day" by Carrie Jacob Bond and "All Through the Night", the second selection being by request. The singer had as an accompanist

is son, Vernon Williams. The program follows: Where E'er You Walk-Handel. Total Eclipse—Handel. Sound an Alarm-Handel.

HOG FEEDERS

We have at last dis until 10 bushels will make 25 bushels i bulk, then draw off gallons of syrup and add 50 gallons of water and then gallons of ground wheat and oats to thicken the slop, feed it warm it possible. This will make 100 gallons of the best slop ever fed a hog. Come and see 160

head I am feeding on 10 bushels of this mixture of dry grain per day and you surely will be convinced it is the only way to feed. They are running on my wheat stubble sown in colver, all eat regular and perfectly

so come and see them, and you will say they are doing better than hogs fed twice the amount of dry grain.

healthy. If I tell you what they are gaining you could not believe it,
